Dear Patient:

Thank you for choosing Ohio Orthopaedic Center for your medical needs. Our staff has prepared this informational sheet to insure that your visit is a pleasant one. We look forward to serving you and building a lifetime relationship.

Insurance Card- We must be able to verify insurance so it is important to bring your card to each appointment. Also, let our staff know if there has been a change in insurance from a previous visit.

Referrals- Many insurance companies require a referral from your family doctor before we can treat you. Please check with your insurance company and, if a referral is needed, have your family doctor send it to us prior to your appointment.

Co-Payment- If your insurance has a co-payment, please have it with you at each appointment. Our contracts with these companies require us to collect co-pays prior to each visit.

Self Pay- If you do not have health insurance, payment in full is required for each appointment. If your visit is due to an urgent medical condition, and you cannot pay in full, please contact our billing department for a payment plan.

Workman's Compensation- Patients without a BWC claim number must have an insurance card, or pay in full, at the appointment until the claim is approved.

Auto, Personal Injury & Third Party Liability Claims- We do not accept protection letters from attorneys or insurance companies.

Thank you again for choosing us and please call if you have any questions.
